

Beautiful Glass

Have you ever wondered how a stunning piece of stained glass art would look in your home? If you have but are unsure about how to commission such a piece, then look no further than an established and talented artist working within our elegant town.

Caryl Hallett is a stained glass artist. From her studio in Harrogate, she provides a full design and make service to create bespoke contemporary and traditional stained glass installations for both private and public settings. Using traditional methods and craftsmanship, Caryl's installations are both functional and works of art. Her work is often abstract, inspired by nature and by the beauty of the glass itself. Each of her commissions is unique and developed in relation to its prospective location, function and the preferences of the client. She undertakes complete project management of the work, including liaison with architects and other appropriate professionals.

After an initial enquiry, Caryl will visit your home, assess the possibilities and discuss ideas for a stained glass installation. Sometimes a property demands sympathetic retention of traditional features to properly reflect an era or particular style; or maybe requires a bespoke contemporary piece that enhances the home environment through the creative use of colour, texture and design. Once ideas have been shared, Caryl will work on a design brief and provide a quote along with a selection of suggested glass samples, so that the installation can be envisaged by the client. When details are agreed, a deposit is paid and then commission begins. All that's required then is a little patience while Caryl employs her craftsmanship and skill to produce a beautiful piece of art for your home! Her website illustrates the range of her work and includes many glowing testimonials from very satisfied clients.

During the weekends 9th/10th and 16th/17th of June the general public are invited to visit Caryl at her Harrogate studio. Many of her art pieces will be available to purchase at the event. See www.art-connections.org.uk for more details.
